from the war zone south of Aguascalientes.

THE EXPLANATION.  
It is estimated that two weeks must elapse before Villa's entire army could be transported back from Chihuahua to Aguascalientes, where the northern limit of Huerta territory extends. Villa's officials continue to assert that the sole reason for quarantining his command so far from the scene of operations was to secure sufficient food for his soldiers and good forage for the horses.

## FOUR TAKE OFFICE IN HUERTA CABINET

Mexico City, Mex., July 11.—Four new ministers took office in Huerta's cabinet Friday. They are: Minister of commerce and industry, Salome Botello, former governor of Nuevo Leon; communications, Arturo Alcaraz; agriculture, Gen. Carlos Rincón Gallardo. Francisco Carral, took office as foreign minister.

Roberto Esteva Ruiz, subsecretary of foreign relations, who has been acting secretary since the resignation of Querido Moheno, was slated for the portfolio of commerce and industry, but at the last moment it was decided to keep him in the foreign office. The chamber of deputies will meet Monday to discuss the presidential elections. It is understood that they will be declared null and void, but what further steps will be taken in connection with the elections is a matter of conjecture.

## SALAZAR EFFECTS ESCAPE FROM FORT WINGATE IS REPORT

Together With Rodrigo Quevedo, He Is Said to Have  
Regained Liberty.

Gen. Jose Ynez Salazar and Rodrigo Quevedo are reported to have escaped from Fort Wingate, N. M., where they have been inmates of the federal prison camp. The federal general and the filibuster commander are said to have bribed the guards and to have escaped to the desert country of New Mexico. Gen. George Bell, Jr., and the other commanding officers at Fort Bliss, say that they have had no report of the rumored escape from the Fort Wingate prison camp.

## RAISE \$2000 Bribe Fund.

A sum amounting to \$2000 is reported to have been made up among local Mexican federal and federal sympathizers to be used in obtaining the release of Salazar and Quevedo. Mexican federal sympathizers declare that this money was delivered to a Mexican federal official here and was to have been used in getting Salazar and Quevedo out of prison camp. One wealthy federal sympathizer in El Paso is said to have subscribed \$500 to the sum, and it is said that the Mexican government had a part in raising this money, as Salazar and Quevedo were wanted by the Huerta government to take the field in the north.

## Investigation Under Way.

An investigation has been started to learn the truth of the reported plot. The prison camp is being guarded by two battalions of the 20th infantry and one troop of the 12th cavalry. The troops are in command of Maj. S. H. Elliott of the 12th cavalry.

A report was received from Fort Wingate Friday that one of the high officers of the federal army had given an American soldier \$5 to allow him to crawl through the barbed wire fence. The soldier on guard took the money, allowed the Mexican to pass through the fence and arrested him. The officer carried a grip in which there were \$15,000 in Mexican bills. He was returned to the camp and placed in the bull pen under heavy guard. It is not known whether this officer was Salazar or another patriot. The Mexican is said to have killed a federal paymaster and took the money from him.

Lathrop, assistant to the vice president of the Pearson company, has returned from Madera, where he has been making an inspection of the plant, which was closed down for 15 months because of the revolutionary trouble. The lumber from these mills must be shipped to El Paso by way of Chihuahua, as the Cuernavaca tunnel is not yet open.

Albuquerque, N. M., July 11.—Dr. Eligio Osuna of Albuquerque, a personal friend of Gen. Carranza, has returned here after two months in Mexico as personal physician to the "Constitutionalist" chief.

Even in the event Carranza and Villa are not entirely harmonized, Osuna said, no serious setback to the "Constitutionalist" cause would result, since, he declares, other generals are in command of the troops now concentrating in San Luis Potosí, who are fully competent to carry out successfully the final taking of Mexico City which, he says confidently, will be done soon and with comparatively little serious fighting.

Dr. Osuna is to return to Mexico as chief surgeon in the "Constitutionalist" army.

Five trunks filled with \$4,000,000 worth of "Constitutionalist" currency will be released Monday by Lazaro de la Garza and the Wells Fargo Express company to Samuel Belden, representing Felicitos Villareal, subsecretary of hacienda.

This money has been held by the court pending the settlement of a dispute between the Carranza and Villa representatives. By agreement it will be delivered to attorney Belden Monday. With the other "Constitutionalist" currency now in possession of the Carranza representatives, this money will be sent to "Constitutionalist" headquarters in Saltillo.

Holmdahl said he expected to be executed. The French and American consuls at Hermosillo interceded in his behalf. Following his deportation, E. L. Holmdahl wired Lee Hall, a friend in this city, that he was leaving for El Paso and he is expected to arrive today.
